

Getting Started - Installation

- 1:** While the vehicle is off, plug the Sensor into the OBD-II port (usually located under the dash on the drivers side)

- 2:** Pair the iPod touch®, iPhone®, or iPad® to the Sensor

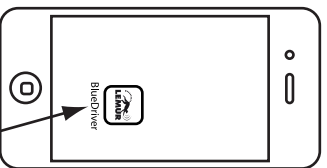

Select
**Settings >
General >
Bluetooth**

Ensure Bluetooth is **ON**.
Wait for BlueDriver to appear
under Devices

Select BlueDriver
and wait for it to
display **Connected**
then Exit

Note: Sometimes when pairing with the Sensor, BlueDriver disappears from the Devices list before pairing is complete. If this happens restart your iPod touch, iPhone, or iPad. Make sure the vehicle is off in **Step 1** and re-install the Sensor.

- 3:** Start the vehicle, the Sensor LED will blink blue 10 times, then launch the BlueDriver App

Select
BlueDriver

Wireless Vehicle Monitors

BlueDriver™

USER MANUAL

Limited One Year Warranty

Root Four Imagination Inc. warrants this product to be free from defects in materials and workmanship for a period of one year from the date of sale to the original user or consumer purchaser. Root Four Imagination's exclusive obligation under this warranty shall be, at its option: (a) to supply, without charge, a replacement of the product or (b) to refund the purchase price in respect of any product that is found to be defective and that is returned, with its proof of purchase to the original supplier.

This warranty excludes and does not cover defects, malfunctions, or failures caused by misuse, unauthorized repairs, modifications or accidental damage. This warranty is only applicable to a product purchased through a Root Four Imagination authorized dealer. In no event shall Root Four Imagination be liable for consequential or incidental damages. This warranty is in lieu of all other expressed warranties. The duration of any implied warranty is limited to the period of the expressed warranty set forth above.

FCC Information for BlueDriver™

FCC Class B Part 15

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by Root Four Imagination Inc. void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Industry Canada Certification

Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

"Made for iPod," "Made for iPhone," and "Made for iPad" mean that an electronic accessory has been designed to connect specifically to iPod, iPhone, or iPad, respectively, and has been certified by the developer to meet Apple performance standards. Apple is not responsible for the operation of this device or its compliance with safety and regulatory standards. Please note that the use of this accessory with iPod, iPhone, or iPad may affect wireless performance.
